It is reported on pretty good authority that one of the parties boasted that the cruel treatment was practiced the same as ever, but that the girl was taken into the celler in the night time, and such precau-tion taken as would defy detection. Shortly after the verdict, the girl was found on the river bank in a state of nudity, covered with fresh stripes and blood, and said that she had been so barberously maltreated by her owners, that she could not endure it any longer, and had therefore run away. The girl's manner showed that she had evidently contemplated suicide, and was about to drown herself when discovered. The person discovering her considered it his duty to return her to her tormen

A third chapter in this diary of brutali ty came to light yesterday evening. About six o'clock, as officer Gunnell was passing the residence of the Peters' on Sixth-st., near Franklin avenue, he heard loud screams as of some person undergoing terrible suffering, and in a moment thereafter the negro girl Lucretia leaped over the fence, and was caught in the officer's arms Her head was covered with blood, proceed ing from two gashes, penetrating to the bone. The officer took her to the Calaboose, where her woonds were dressed by the Health officer. Her story was that she had been besten by Mr. and Mrs. Peters, and that the latter struck her on the head with a loose table leg.

The girl's testimony of course could not

be taken in a court of justice, and it is not likely that any other can be obtained. All the circumstances, however, go to prove its truth. These brutalities have proceeded quite long enough, and we would ask, in the name of humanity, whether the people of St. Louis a e so powerless that such things must be permitted to take place

Dalley's Magical Pain Extractor will cure the following among a great catalogue of diseases; Burns, Scalds, Cuts, Chafes, Sore Nipples, Corns, Bunions, Bruisses, Sprains, Bites, Poison, Chilbiains, Bites, Serofula, Ulcers, Fever sores, Felons, Earache, Files, Sore Eyes, Gout, Swellings, Rheumatasm, Scald Head, Sait Rhesum, Baldness, Erystpeiss, Ringworm, Barber's Itch, Small Pox, Measles, Hash, &c., &c.

To some it may appear incredulous that so many diseases should be reached by one article, such an idea will ramish when reflection points to the fact that the salve is a combination of ingredients, each and every one applying a perfect antidote to its apposite disorder.

Dalley's Magical Pain Extractor in its effects is magical, because the time is so short be-tween disease and permanent cure; and it is an extractor, as it draws all disease out of the affected part, leaving nature as perfect as before the injury. It is scarcely ne-cessary to say that no house, work-shop, or manufactory should be one moment without it.

No Pain Extractor is genuine unless the box has upon it a steel plate engraving, with the name of Henry Dal-ley: Manufacturer. For sale at the BOOK STORE, Millersburg, Ohio.

The Catholicon is doing good service here. All the patients that have tried the medicine have been benefited but one—and that one nothing will help.

Truly yours, WM. LAIRD HAYLETT, M. D. New Philadelphia, O. I am persuaded, after trying it in a great many cases, that it surpasses all other remedies within my knowledge for that class of difficulties for which it is recommended. It has cured some very extreme cases under my observation, which have resisted all other treatment.

Ayer's Cathartic Pills.

The sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Insumerable proofs are shown that these Pills have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are and and piesaant to take, but powerful to cure. Their penetraling properties stimulate the virtal activities of the body, remove the obstructions of its organ, purity the blood, and expel disease. They purpose the foul humers which breed and are adistemper, stimulate sluggish or disordered organs lines their natural action, and import healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also fermidable and dangerous diseases that have balled the best of human shill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be simployed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Curse have been made which surpass belief were they not entatable by men of such exalled position and character as to forbid the suspicion of untroth. Many emittent clergymen and physicians have lent their names to cartify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afficted, suffering fellow-men.
